DETAILED ACTION

Allowable Subject Matter

1. Claims 1-10 and 12-21 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or suggest the instant invention. In particular, the subject matter not found was a subcutaneous hydrocephalus valve with an arcuate magnetized pressure adjuster, along with the other steps and limitations of the claims. The best prior art of record, US 5,643,194 to Negre discloses a magnetized adjustable pressure adjuster that uses an arcuate spring to adjust the pressure on the ball valve. However, Negre's magnetized rotary member is a bar which blocks fluid flow, not a circular member shaped to encourage fluid flow, as claimed in the instant invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
